

Dear Customer,

You are invited to join us at the upcoming Vehicle and Powertrain CAE seminar, 10 December 2015, being held at the prestigious **Grinzane Cavour Castle** near Barolo. Hosted by Leonardo Engineers for Integration and Ricardo Software, the seminar will focus on reviewing new product features and integration capabilities as they pertain to industry best practices. Our partner MathWorks will contribute to this seminar introducing how Model-Based Design with MATLAB & Simulink can be leveraged for Real-Time applications. The detailed agenda is forthcoming.

A welcome dinner and evening of networking is being planned for seminar attendees on 9 December at the **Marchesi di Barolo Winery**. Guests will be offered the opportunity to visit the original cellar of the famous wine maker and participate in a guided tour to learn about the history that spans more than 200 years.

Kindly, RSVP for the seminar and dinner [here](#). Spouses and partners are welcome. Further details regarding the seminar agenda and welcome dinner will be provided to registered attendees.

For assistance with accommodations please contact info@leonardointegration.com.

We look forward to welcoming you in Barolo,

Pietro Bianchi
President
